LUX LES DOM DEKOR

ABOUT US

LUX LES DOM DEKOR

We are specialized in wooden decor and wooden panels, and we offer an incredible variety of custom hand-made wood products. And if you don't see exactly what you're looking for, we can custom manufacture what you need.

All of our products are responsibly created with the environment in mind. We continually improve processes to reduce waste. Our products define choice, quality and sustainability. Our commitment to innovative manufacture solutions leads to greater efficiency, less waste, and more beautiful products. We believe it should be simple and easy to find yourself in our products. That is why our customers are also our partners. We work with them to select the best product for their needs. Lux Les Dom Dekor operates its businesses safely, using a renewable resource that must be managed responsibly. We will implement round sustainability initiatives to ensure that abundant and healthy forests remain for future generations.

WALL PANELS

The wall panels are one of the old wood products that we offer and are an innovative, globally demanded product in the area of wooden wall cladding. All wood parts are different in length, thickness, width, wood grain and sorting, which are arranged on the support plate in a beautiful pattern. Each panel is handmade and unique. The wall panels bring, in our opinion, the comfort and warmth, the individuality and the contrast and, most importantly, the feeling of nature and history in space!

DECOR

We have prepared special products for art and decoration lovers. First of all, we must mention that all our products are saturated with an environmentally friendly oil protection so that they can come into contact with children. We offer services for making special decors at the request of clients. You have the opportunity to see a line of decors with a very diverse offer from wooden wall decorations to everyday use items and children's toys. All our products are handmade and unique. We are open to all your ideas and requirements. Share your story with us and you might appear in our blog about interior design.

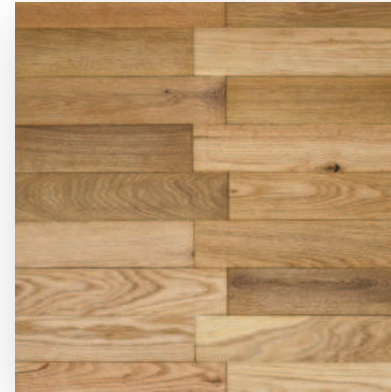

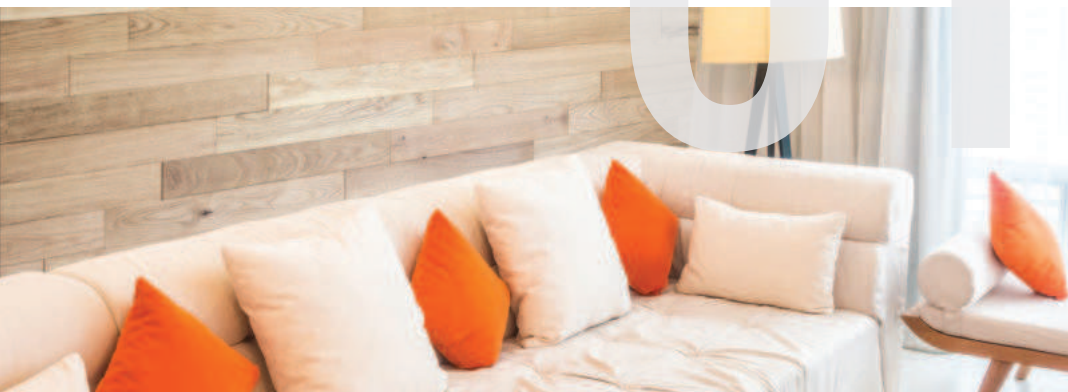

RESPONSIBLE FORESTRY

Our team uses only certified ecological paint, oils and packaging products. All of our products are environmentally friendly. As our products are made from brand new wood we have decided to contribute to the region and launch a non-profit afforestation project. We intend to plant a new tree for every used one. Anyone can join the project. More about the project will be available soon in some of our blogs, and during the project you will have the opportunity to join the volunteer program and follow it all on our Facebook and Instagram profile.

PANELS

01

HOME & DECOR

NATURAL OLD WOOD RAW MATERIALS

Natural old wood raw materials are from a collection of old Slovenian houses, barns and industrial buildings to be demolished. The trees from which the wood was obtained grew in ancient forests rich in biodiversity. They were felled when they reached maturity, often at the age of hundreds. This century filled wood with features that cannot be seen in modern wood: denser fibers, unmatched size and deeper colors.

The 17th century was one of the most important in the formation of the modern world. By choosing reclaimed wood at this turning point in history, you are not only choosing to work with a material that has stood the test of time, but you are also opting for sustainability. We are proud to rediscover the beauty of the past and create an opportunity for this unique product that will be appreciated and shared by generations in the future.

Lux Les Dom Dekor is a direct supplier of authentic recycled wood materials obtained naturally from old barns. Barn timber, available in old cladding and planks, reclaimed floors, and custom furnishings, is an excellent choice for decorating living spaces and interiors.

In stock:

Wooden OAK beams.
Planks with old patina.
Old chestnut with patina.
Spruce old beams.
Old Spruce boards (sunny patina).
and much more...

Upon your request, we will provide you with all the information you are interested in.
